Excerpt of General Terms and Conditions (<https://www.netbid.com/en/terms>)

Acceptance of purchased lots

- 9.1 The acceptance of the purchased lots, including disassembly and transport, takes place at the expense and risk of the Buyer. The Buyer is liable for damage caused to the property of others during assembly or transport. In this respect, the Buyer releases the Auctioneer and the Seller from any claims of third parties upon first request.
- 9.2 The Buyer is only entitled and obligated to collect the lots on the dates specified by the Auctioneer. The Auctioneer may decide that a specific lot can only be collected after the removal of other lots. The Buyer whose lot(s) prevent(s) the collection of other lots is obligated to ensure the collection of the lot(s) without delay upon written request from the Auctioneer (email suffices). If this does not take place, the Auctioneer may delegate the collection and, if necessary, storage to third parties at the expense and risk of the Buyer.
- 9.3 If openings are produced on a building or parts of a building during disassembly, the Buyer shall be obliged to have them closed again by a specialist company at its own expense. The Auctioneer reserves the right to place deposits on lots if their disassembly could cause damage to real estate and/or other property of third parties. The announcement of the available lots and the deposit sums will be made during online auctions on the online platform.
- 9.4 During assembly and collection of their lot(s), the Buyer is obligated to follow the instructions of the Seller and/or the Auctioneer, or the persons engaged by the Auctioneer.
- 9.5 The Buyer shall ensure that the necessary permits for the disassembly and/or collection/transport are available in good time before the tasks are performed.
